

1. Entry & Authentication

1. **Landing Page - please be creative on this.**
 - Short intro to the platform.
 - "Sign Up" & "Login" buttons.
 - Basic marketing highlights if needed.
2. **Login Page**
 - Email / Username & Password fields.
 - "Forgot Password?" link → password reset flow.
3. **Registration Pages**
 - **Employer Registration**
 - Company Name, Contact Person, Email, Phone.
 - Company Verification upload (documents).
 - Await verification status.
 - **ND Adult Registration**
 - Personal details, Guardian link (optional).
 - Identity verification upload.
 - **Guardian Registration** (if direct sign-up is allowed).
4. **Verification Status Page**
 - "Pending Verification" screen with steps to complete.

2. Role-Based Dashboards

2.1 ND Adult Dashboard

- Profile summary (Name, Points, Level, Badges earned).
- **Job Suggestions** (cards with job details & "Apply" button).
- License Status widget.
- Progress tracker (LMS completion %, Certifications).

2.2 Employer Dashboard

- Company profile summary (Points, Certification Status, Badge).
- List of job postings (Active / Expired / Draft).
- Suggested ND Adults (profiles with match score).
- License Status widget.

2.3 Admin / Management Dashboard

- High-level KPIs (Total ND Adults, Employers, Active Jobs, Certifications).
- Charts for activity, engagement, and LMS module completion.
- Verification requests pending.

3. CRUD & Management Screens

1. **User Management**
 - List, Search, Filter by role.
 - Create/Edit/Delete users.
2. **Employer Management**
 - Company details, status, documents.
 - Approve/Reject verification.
3. **Guardian Management**
 - Linked ND Adults, approvals, status.
4. **Job Postings**
 - Create/Edit/Delete job postings.
 - Job listing table with filters.
5. **Mentor Management**
 - Profiles, linked ND Adults, activity logs.
6. **LMS Module Management**
 - List of modules, Create/Edit/Delete.
 - Assign modules to roles.
7. **Other Settings**
 - Payment Gateway config.
 - Timezone, Date/Time format, Theme selection.

4. Other UI Pages

- **Profile Page (for all roles)**
 - Personal/Company info, Contact details, Change password, Upload profile picture/logo.
- **Notifications Center**
 - Job matches, License updates, Certification expiry alerts.
- **Reports & Analytics (for Admin/Manager)**
 - Exportable tables and graphs.
- **License & Certification Status Page**
 - Details, expiry, renewal option.
- **Error Pages**
 - 404 Not Found, 403 Forbidden, Session Expired.

5. Reusable Components

- Top navigation bar (role-based menu items).
- Side menu (collapsible, role-based links).

- Search bar with filters.
- Tables with pagination & sorting.
- Cards for job postings, user profiles.
- Modals for quick add/edit forms.
- Toast notifications & alerts.

Note: Let's use resource bundles for UI components labels.
